Brantano is a 44 years company specialized in manufacturing high quality footwear that meets international export requirements.

We have worked with both national and international clients over the years, which has established us as leaders in the footwear industry. In addition, we created the Brantano brand, which now has over 20 stores in our country's top fashion malls and an online store at brantano.com.mx. This has given us a better understanding of consumer needs and helped us improve our operations.

Leading the
Industry
Since 1981

We are one of the top footwear companies in Mexico due to our commitment to high-quality materials and attention to detail.

We strive to become strategic partners with our customers by delivering products tailored to their unique needs and markets, while maintaining our high standards for export quality. Our team combines advanced technology and extensive training to streamline their processes.

Total Capacity

1 million pairs a year.

3,000 pairs/day cemented/stitch & 2,000 pairs/day direct attached PU.

Constructions

Cemented

Hand-sewn on the last

Strobel

Stitch Down

Look Stitch

Direct Attached PU Shoes on Desma Machines TPU/PU.

*For New Styles, depends on tools investment and MOQ's materials request.

Our collection:

Every pair in our Western collection begins with the hands of skilled artisans, craftsmen who understand leather, movement, and the quiet power of a well-made boot.

Using premium full-grain hides, hand-placed embroidery, and reinforced stitching, we create footwear that feels both heritage-rich and unmistakably modern.

We offer products that feel as good as they look, with the perfect balanced combination between fashion and comfort.

Footwear made with materials of the highest quality possible, always ensuring the satisfaction of our customers.

Our leather soles are shaped for longevity.

Our cuts are designed for comfort and precision. Our finishes carry the character of true craftsmanship, the kind that only comes from decades of expertise.

This is footwear that holds its structure, ages beautifully, and performs everywhere from city streets to open landscapes.

“You don’t just wear these boots. You live in them.”

We are a proudly Mexican brand, always
at the forefront of design and quality.

Internal Laboratory Testing

We take great pride in our **state-of-the-art materials laboratory**, where we test the composition of all materials to ensure the highest production quality standards. Additionally, we follow strict international policies such as California Proposition 65, which ensures that all of our products are made with non-toxic, safe materials for all consumers.

Leather And Lining
